

Mulraney Components Ltd, your supply chain provider for all your engineering needs, JIT or Kanban solutions.

Machine Shop

MCL are pleased to offer CNC and conventional machining solutions from our ISO9001 certified Brierley Hill headquarters, with a commitment to price, quality & delivery.

We specialize in producing high-quality machined components used in a variety of applications and sectors, such as automotive, aerospace, medical, agriculture and more.

We can produce parts to customer specifications from small batch to volume requirements, and in addition we offer reverse engineered solutions.

Oddie Quarter (1/4) Turn Fasteners
Push to lock, quarter turn to unlock, quick release fasteners...

Oddie® Fasteners

MCL are proud to be the manufacturer of the Oddie® Fastener family of products.

We provide a full range of ¼ turn quick release fastening solutions in various sizes, materials and finishes.

We can also offer bespoke fastener solutions for your specific requirements, if not covered by our standard range.

In addition to the Oddie® range of fasteners, we are the official UK distributor for Savigny SAS and their extensive range of high-quality toggle latches, hinges, and handles.
